EARLY PLANNING BASELINE

Use this sheet to plan the room and procurement. Confirm the selected template, final equipment and installation drawings with WEEV before purchase or fabrication.

RECOMMENDED BASELINE HARDWARE

- Commercial touch display or display with supported gesture sensor
- Windows playback computer: Core i5 class, 16 GB RAM, SSD
- Dedicated GPU recommended for multiple high-resolution videos
- Wired network recommended for analytics and support

SPACE AND ENVIRONMENT

- Typical display: 43-75 inches
- Allow 1.2-1.8 m viewing distance
- Use landscape or portrait orientation supported by the selected template

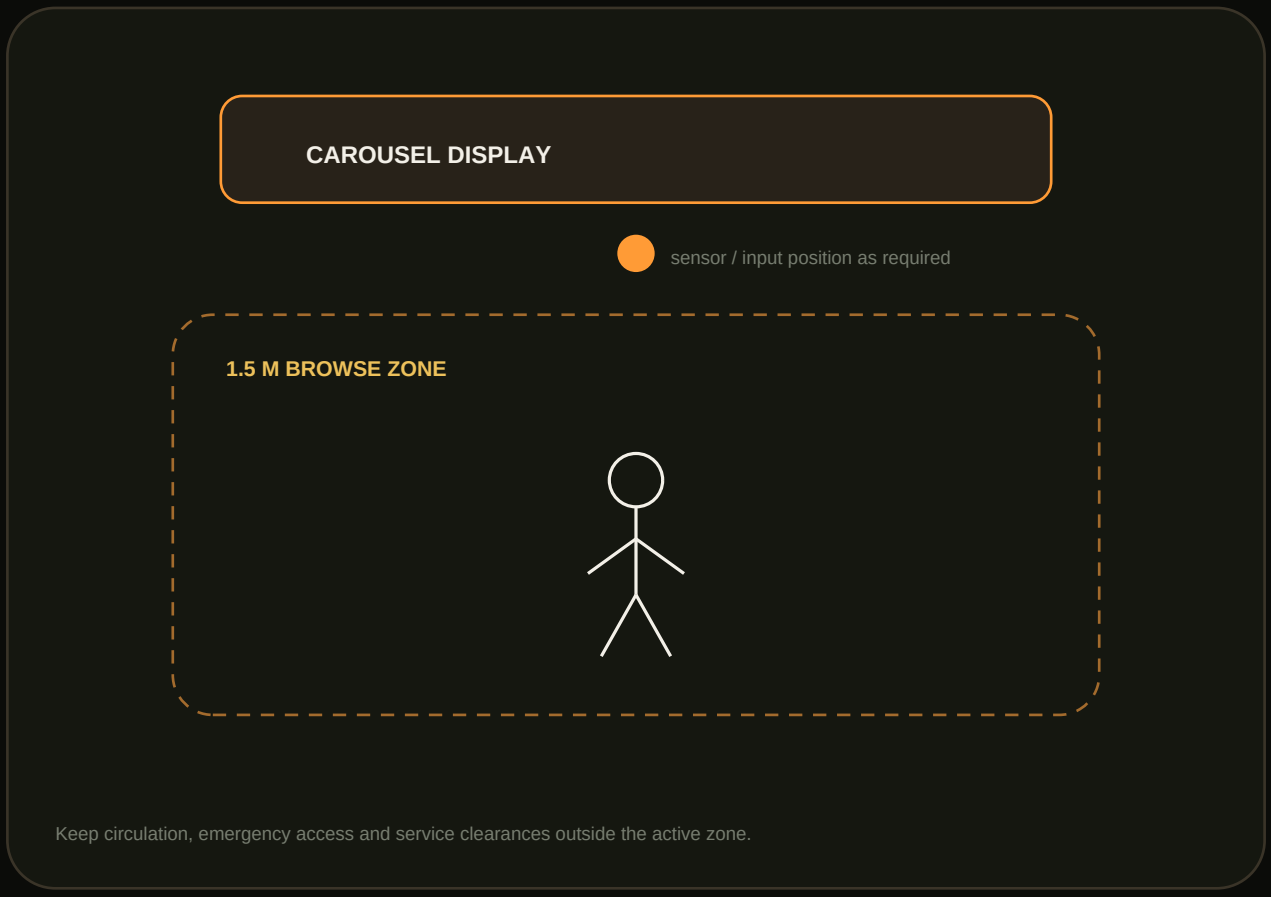
PLAN BEFORE INSTALLATION

- Confirm display size, orientation and mounting detail
- Prepare final media, copy, languages and brand assets
- Provide clean power, concealed cabling and operator access
- Test the complete experience on the intended hardware before opening

INDICATIVE SETUP DRAWING

Plan the interaction zone

Top view - dimensions and hardware positions must be validated for the selected room.



CONTENT, POWER AND CONNECTIVITY

- Final content resolution follows the selected template and display orientation
- Provide stable mains power with surge protection and an accessible isolation point
- Wired internet is recommended for analytics, updates and remote support
- Run signal, USB and sensor cables separately from noisy power where practical

WHAT TO SEND WEEV

- Room plan and site photographs
- Display dimensions and mounting proposal
- Available computer, camera, sensor and control hardware
- Audience profile, accessibility needs and target opening date
