WEEV BLOCK

Motion

Body movement controls responsive visual templates

EARLY PLANNING BASELINE

Use this sheet to plan the room and procurement. Confirm the selected template, final equipment and installation drawings with WEEV before purchase or fabrication.

RECOMMENDED BASELINE HARDWARE

- Large commercial display or projector
- Windows computer: Core i7 class, 16-32 GB RAM, SSD
- Dedicated GPU and supported depth/tracking camera
- Secure sensor mount and operator-accessible calibration

SPACE AND ENVIRONMENT

- Plan approximately 3.0 x 3.0 m clear tracking area
- Keep spectators outside the active sensor zone
- Avoid mirrors, direct sunlight and strong backlight

PLAN BEFORE INSTALLATION

- Confirm display size, orientation and mounting detail
- Prepare final media, copy, languages and brand assets
- Provide clean power, concealed cabling and operator access
- Test the complete experience on the intended hardware before opening

INDICATIVE SETUP DRAWING

Plan the interaction zone

Top view - dimensions and hardware positions must be validated for the selected room.

CONTENT, POWER AND CONNECTIVITY

- Final content resolution follows the selected template and display orientation
- Provide stable mains power with surge protection and an accessible isolation point
- Wired internet is recommended for analytics, updates and remote support
- Run signal, USB and sensor cables separately from noisy power where practical

WHAT TO SEND WEEV

- Room plan and site photographs
- Display dimensions and mounting proposal
- Available computer, camera, sensor and control hardware
- Audience profile, accessibility needs and target opening date
